Business  
Industry  
Awards**

# Message from the Office of Small Business Programs

## Associate Administrator

“It is my honor to congratulate the Fiscal Year 2022 National Aeronautics and Space Administration (NASA) Small Business Industry Award (SBIA) winners!”

On behalf of the NASA Office of Small Business Programs, it is my honor to congratulate the Fiscal Year 2022 National Aeronautics and Space Administration (NASA) Small Business Industry Award (SBIA) winners!

NASA Small Business Industry Awards recognizes outstanding small businesses that have contributed to NASA’s mission and helped advance aerospace technology. These awards are given annually to businesses that have demonstrated exceptional performance. The SBIA program recognizes the outstanding Small Business Prime Contractor, Small Business Subcontractor, Large Business Prime Contractor, and the Mentor-Protégé Agreement of the year.

The small businesses highlighted in this publication each started with a vision. In essence, they continued to break through barriers and are being recognized as pioneers of the future of space exploration, scientific discovery, and aeronautics research. This year’s winners are committed to providing pathways for small businesses while promoting the development and management of NASA’s programs! Our success is due to these dedicated recipients for being forerunners of mission equity, while fostering innovation and collaboration in order to support our agency’s achievements. We are pleased to honor this year’s SBIA winners for their active participation in NASA’s small business initiatives with integrity and excellence!

I would like to thank the Agency’s senior leadership team for their continuous support and commitment to our program; as well as the Center small business specialists, procurement officers, and technical advisors; and other personnel that champion the value of small businesses at NASA every day.

Congratulations again to this year’s honorees for being examples of how small business make a BIG difference at NASA and we appreciate your continued support of our program.

Sincerely,

A handwritten signature in black ink that reads "Glenn A. Delgado". The signature is written in a cursive style.

**Glenn A. Delgado**

## Mission and Overview

### MISSION STATEMENT

The mission of the NASA Office of Small Business Programs is to promote and integrate small businesses into the industrial base of contractors and subcontractors that support the future of space exploration, scientific discovery, and aeronautics research.

### OVERVIEW

Small Businesses are the backbone of the American economy and play a very critical role in propelling our nation forward into a new space age. Hundreds of small businesses have contributed to some of NASA's most premier space exploration missions, from the Space Launch System (SLS) to the James Webb Space Telescope. Small Businesses not only support science and technology tasks across a wide range of disciplines, but many also provide critical program management functions that keep our projects within budget and on schedule.

NASA's Office of Small Business Programs primary mission since its inception has been to increase the representation of small businesses in NASA's contracting efforts. Our efforts encompass all federally recognized socio-economic small business categories and we work hard to make sure each type of business gets a fair chance to work with NASA.

# About the NASA OSBP Small Business Industry Awards (SBIA) Program

The Small Business Industry Awards (SBIA) annually recognizes outstanding small businesses that provide critical support to NASA missions. As these companies increasingly enhance the Agency's capabilities and capacity, as well and spark innovation across industries, we look to highlight their undeniable contributions.

For additional information, contact the Small Business Specialist at the NASA Center that you support.

Small Business Industry Awards (SBIA) are given in four categories:

- (1) Small Business Prime Contractor of the Year
- (2) Small Business Subcontractor of the Year
- (3) Large Business Prime Contractor of the Year
- (4) Mentor-Protégé Agreement of the Year.

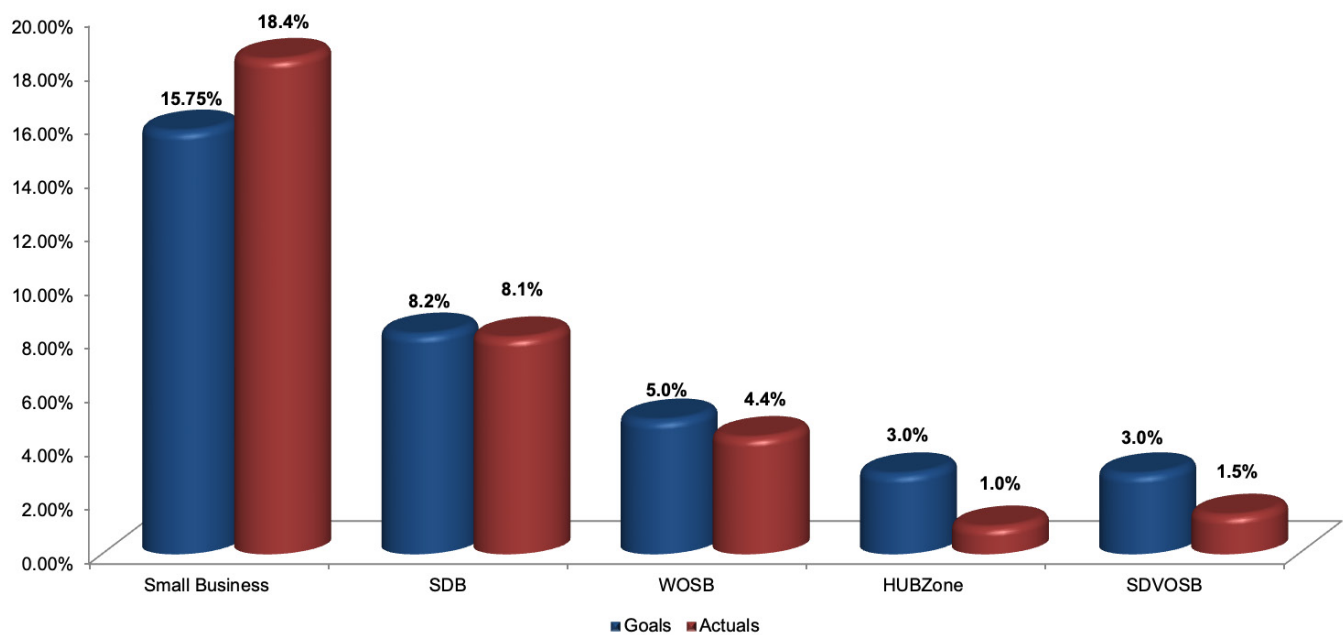

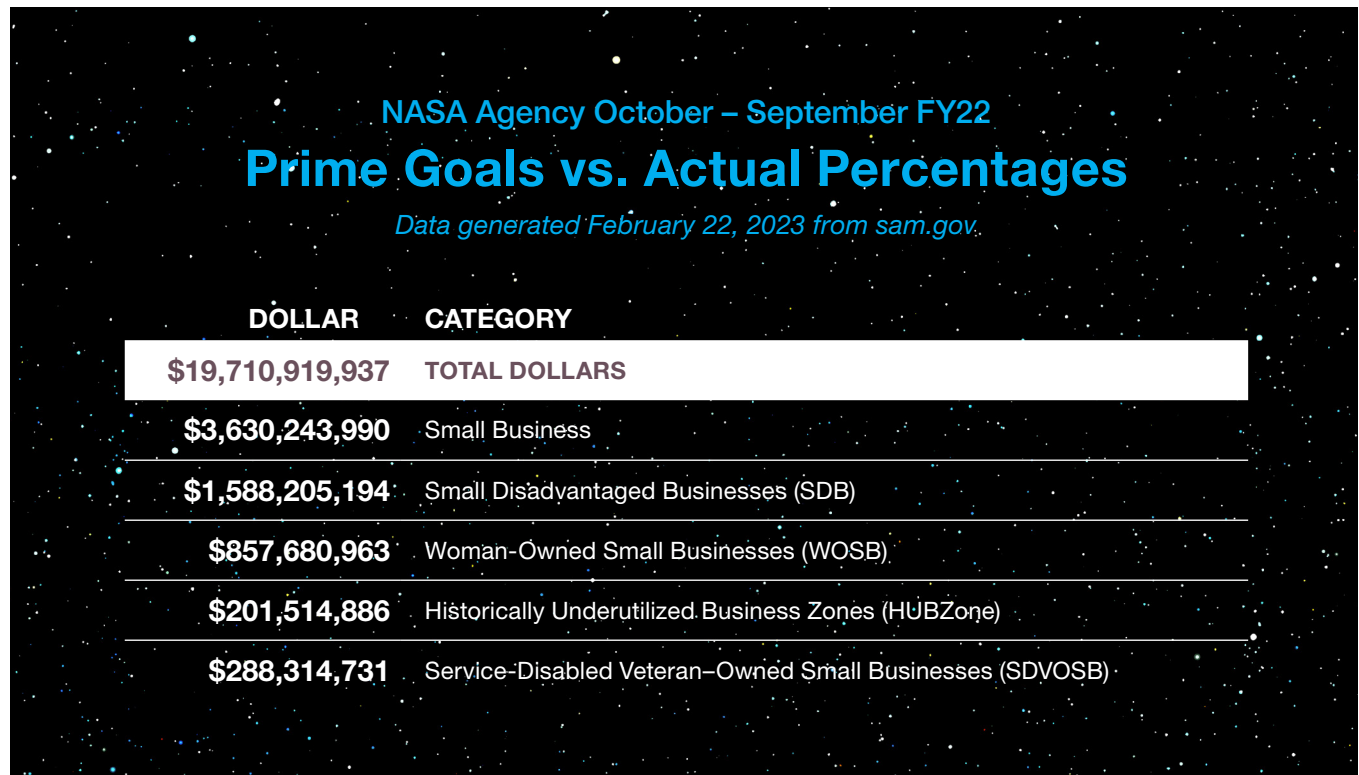

Criteria for choosing award winners is detailed at <https://www.nasa.gov/osbp/awards/sbia.html>.
