WISCONSIN

There are 8 NASA Federal jobs and 151* contractors in the state of Wisconsin.

For every NASA federal job located in Wisconsin, an additional 32.5** jobs are supported in the state economy. For every million dollars' worth of economic output generated by NASA federal jobs, an additional \$13** million worth of output is sustained throughout the state economy.

* Indirect effects are the purchases of goods and services by government agencies and private sector contractors, as well as by the industries that supply them.

** Multiplier based on IMPLAN Input Output (I-O) model. To learn more, please visit: <https://blog.implan.com/understanding-implan-multipliers>

The Targeting Improved Cotton Through Orbital Cultivation (TICTOC) experiment, will be launched to the International Space Station for crew to investigate how environmental factors and genes control development of roots in the absence of gravity. The University of Wisconsin – Madison researchers provided cotton seeds for this experiment

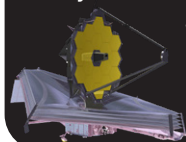

Twenty-three Wisconsin suppliers contributed to NASA's Artemis program. An example of the state's contributions is providing textile materials used on Artemis for thermal protection.
