

ANNUAL PROCUREMENT REPORT

Fiscal Year 2007

INTRODUCTION

This report presents summary data on all NASA procurement actions and detailed information on contracts, grants, agreements, and other procurements awarded by NASA during Fiscal Year 2007 using appropriated funds. All data was pulled from the Federal Procurement Data System-Next Generation (FPDS-NG)* with the exception of data on awards made through other Government agencies, which was obtained from NASA's financial system, SAP.

Procurement action, as used in this report, means contractual actions to obtain supplies, services or construction that increase or decrease funds. A procurement action thus may be a new procurement, or a modification such as a supplemental agreement, change order, or termination to an existing contract that changes the total amount of funds obligated. An obligation is a contractual commitment to pay for supplies or services that are specified in the contract. (See Glossary for more information.)

The Annual Procurement Report is available via the internet on the Procurement homepage. The address is: <http://www.hq.nasa.gov/office/procurement/>. The report was prepared by the Analysis Division, Office of Procurement, NASA Headquarters. Inquiries should be addressed via email to Procurement@hq.nasa.gov or, in writing to:

III. COMPETITION IN NASA AWARDS

A. Competition in Contracting Act

The Competition in Contracting Act (P.L. 98-369), with limited exceptions, requires full and open competition within the federal government. Full and open competition means that all responsible sources are permitted to submit sealed bids or competitive proposals on a given procurement.

Contracting without providing for full and open competition is allowable under certain circumstances. Written justifications are required to award procurements on an other than full and open competition basis.

B. Reporting of Competition

NASA developed a competition advocacy program to enhance and promote competition and to eliminate barriers to full and open competition. NASA has appointed an agency competition advocate to oversee the program and each NASA center has a designated competition advocate. Federal agencies are required to submit uniform competition statistics to Congress in an annual report that summarizes the accomplishments of the agency's competition advocacy program during the past year and describes proposed actions for the current year to increase competition and reduce noncompetitive contract awards.

C. Competition During Fiscal Year 2007

Appendix II and IIA shows Competition to Business Firms for the period Fiscal Year 1961 – 2007.

IV. AWARDS TO BUSINESS FIRMS

A. Awards By Contract Type

Fiscal Year 2007 – The table below depicts the trends in awards to business firms by contract type. Figure 3, on the following page, categorizes Fiscal Year 2007 awards of new contracts and modifications to existing contracts. The large percentage of procurements which have award fee and incentive provisions resulted from major procurements for the Space Shuttle and Space Station programs.

B. Small Business Participation

Total Small Business - During Fiscal Year 2007, NASA awards to small business firms totaled \$2,002.7 million (See Figure 4). The \$2,002.7 million includes \$473.7 million in new awards. New awards to small business firms represented 43.6 percent of NASA's total new contract awards of \$1,085.8 million to all business firms during Fiscal Year 2007.

* Includes \$505.4 million awarded to small disadvantaged firms under Authority of Section 8(a) of the Small Business Act. Also includes \$99.9 million awarded through Small Business Innovation Research and Small Business Technology Programs.

Figure 4

Small Business Programs & Categories

(1) Small Business Set-Asides - Small business set-asides are defined as competitive awards that are limited only to small business. The small business set-aside program continues to exert a strong influence on the capability of small business firms to participate in the space program. In Fiscal Year 2007, these set-asides amounted to \$747.5 million.

(2) Section 8(a) Business Development Program Awards – NASA awards contracts under the SBA's 8(a) program to eligible firms (typically small disadvantaged businesses). Awards are made on either a competitive or sole source basis. In FY 2007, 8(a) awards totaled \$505.4 million.

(3) Small Business Innovation Research (SBIR) - The Small Business Innovation Development Act requires that Federal agencies, whose extramural budgets for research or research and development exceeded \$100 million, establish a Small Business Innovation Research Program. During Fiscal Year 2007, NASA awarded 309 new SBIR contracts totaling \$26.3 million. Of this amount, 217 were Phase I awards totaling \$21.1 million and 92 were Phase II awards totaling \$5.2 million. Also in Fiscal Year 2007, NASA funded on-going Phase II contracts with a total of \$56.8 million. Included in the total SBIR awards of \$83.9 million, 73 contracts, or \$5.5 million, were to small disadvantaged business firms, and 127 contracts, or \$10.2 million, were to women-owned firms.

(4) Small Business Technology Transfer (STTR) - The Small Business Technology Transfer Act authorizes Federal agencies, whose extramural budgets are in excess of \$1 billion, to establish a Small Business Technology Transfer Program. During Fiscal Year 2007, NASA awarded 44 new STTR contracts totaling \$4.7 million. Of this amount, 31 were Phase I awards totaling \$3.0 million, and 13 were Phase II awards totaling \$1.6 million. One hundred nine on-going Phase II STTR contracts were also funded for a total of \$7.6 million. Included in the total STTR awards of \$12.6 million are 15 contracts for \$644 thousand to small disadvantaged business firms, and 32 contracts amounting to \$2.1 million to women-owned firms.

(5) Women-Owned Small Business Participation - In accordance with Executive Order 12138, Women's Business Enterprise, NASA extends a particular effort to ensure that business firms owned and controlled by women have an equitable opportunity to participate in NASA's procurement program. In Fiscal Year 2007, Women-Owned Small Business firms received prime contract awards totaling \$294 million.

(6) HubZone Small Business Awards – NASA awarded \$94.9 million to Hubzone Small Business Concerns in FY 2007.

(7) Veteran-Owned Small Business Awards – In FY 2007, NASA awarded over \$400.9 million to Veteran Owned Small Businesses. Of this amount, \$169 million was to Service Disabled Veteran Owned Small Businesses.

D. Small Disadvantaged Business Participation

NASA's prime contract awards to small disadvantaged business firms during Fiscal Year 2007 totaled \$691.2 million. The tabulation shown below indicates that NASA has made continuing efforts to increase disadvantaged business participation in NASA's procurements through direct awards and awards placed under the provisions of Section 8(a) of the Small Business Act.

Public Laws 101-144 and 101-507 mandated that NASA establish a goal of awarding at least 8 percent of the value of its prime and subcontracts to small disadvantaged and women-owned small business firms, Historically Black Colleges and Universities, and other minority institutions. NASA developed a plan for achieving the prescribed goal by Fiscal Year 1994, but exceeded it in Fiscal Year 1993. NASA achieved 17.8 percent in Fiscal Year 2007, surpassing the 8 percent goal for the fifteenth year in a row.

E. One Hundred Principal Contractors (Business Firms)

The one hundred contractors that received the largest dollar value of NASA direct awards to business firms during Fiscal Year 2007 are shown below. The awards to these contractors accounted for 89 percent of the direct awards to business firms during the year. The smallest aggregate award to any contractor was in excess of \$10 million. Of the one hundred contractors, 35 were small business firms and of these 13 were disadvantaged firms at the time of award.

V. CONTRACT FOR OPERATION OF JET PROPULSION LABORATORY

The Jet Propulsion Laboratory (JPL) is a Government-owned research and development facility, operated for NASA by the California Institute of Technology. The Laboratory carries out research programs and flight projects and conceives and executes advanced development and experimental engineering investigations to further the technology required for the Nation's space program. The primary emphasis of the Laboratory's effort is to conduct unmanned lunar, planetary and deep-space scientific missions.

Net awards during Fiscal Year 2007 totaled \$1,730.8 million. Of this amount, JPL awarded \$781 million as subcontracts with business firms.

VI. AWARDS TO EDUCATIONAL AND OTHER NONPROFIT INSTITUTIONS*

A. Distribution by Type of Institution and Award

During Fiscal Year 2007, \$1,241.5 million was awarded to educational and other nonprofit institutions. Of this amount, \$823.7 million was awarded to educational institutions and \$417.8 million to other nonprofit organizations. A breakout of these awards between contracts, grants and agreements is shown below:

Type of Award	Total (Millions)	Educational Institutions (Millions)	Nonprofit Organizations (Millions)
Contracts*	\$525.0	\$274.7	\$250.3
Grants	428.2	336.7	91.5
Cooperative Agreements	287.6	212.3	75.3
Space Act Agreements	<u>0.7</u>	<u>0.0</u>	<u>0.7</u>
Total	\$1,241.5	\$823.7	\$417.8

Excludes JPL. *Does not include Delivery Orders or Purchase Orders

In addition to the \$428.2 million in grant awards to educational and nonprofit firms, NASA also awarded \$11.5 million in grants to business firms bringing the total grant awards to \$439.7 million. Agreements (both Space Act and Cooperative) increased to \$390.5 million when awards to business firms of \$102.2 million are included.

B. One Hundred Principal Educational & Nonprofit Institutions*

The one hundred educational and nonprofit institutions that received the largest dollar value of NASA awards during Fiscal Year 2007 are shown on Pages 20-22.

The awards to these institutions accounted for 87 percent of the total awards to educational and nonprofit institutions during the period. Sixty-eight of the top 100 were educational institutions; 32 were nonprofit organizations.

IX. U.S. GEOGRAPHICAL DISTRIBUTION OF AWARDS

In Fiscal Year 2007, 50 states and the District of Columbia participated in NASA's direct awards. The distribution of awards is also shown by region (See Page 27).

The categorization of NASA procurements by state is based on the location where the items are to be produced or supplied from stock; where the services will be performed; or with respect to construction contracts, the construction site. This table excludes awards to other government agencies, awards outside the US and actions against the JPL contract.

XI. PROCUREMENT ACTIVITY BY INSTALLATION

Most of NASA's purchases and contracts are made by the procurement offices of its field installations. During Fiscal Year 2007, these offices accounted for 96 percent of the total procurement dollars.

GLOSSARY

The data contained in this publication were compiled on the basis of the definitions given below:

1. Sealed Bids - Procurement actions resulting from acceptance of bids made by contractors in response to invitations for bid.
2. Award - See procurement action.
3. Coverage
 - a. Summary data are provided in terms of obligations on all procurement actions (see item 8). The obligation data are obtained from the agency's fiscal records.
 - b. Detailed data - Information on procurements includes all contracts, grants, agreements. Wherever exclusions apply, a generalized footnote is provided.
4. Intragovernmental - Procurement actions placed through other Government agencies; except orders placed under Federal Supply Schedule contracts and awards to small disadvantaged business through the Small Business Administration under Section 8(a) of the Small Business Act.
5. Modifications - Any written alteration in the specifications, delivery point, contract period, price, quantity, or other contract requirement of an existing contract, whether accomplished by unilateral action in accordance with a contract clause or by mutual agreement of the parties to the contract. It includes (a) bilateral actions, such as supplemental agreements, and (b) unilateral actions, such as change orders, notices of termination, and notices of the exercise of an option.
6. Competitive - Procurements where offers are solicited from more than one responsible offeror capable of satisfying the Government's requirements wholly or partially, and the award or awards were made on the basis of price, design, or technical competition.
7. Other Than Competitive - Procurements where an offer was solicited and received from only one responsible offeror capable of satisfying the Government's requirements wholly or partially. (Includes contracts resulting from unsolicited proposals.)
8. Procurement Action (Award) - Any contractual action to obtain supplies, services or construction that increases or decreases funds, including:
 - a. Letter contracts or other preliminary notices of negotiated awards.
 - b. Definitive contracts, including purchase orders.
 - c. Orders under GSA Federal Supply Schedule contracts, basic ordering agreements, and against indefinite delivery type contracts.
 - d. Intragovernmental orders.
 - e. Grants.
 - f. Cooperative and Space Act Agreements.

g. Supplemental agreements, change orders, administrative changes and terminations to existing procurements.

9. Small Business - For purposes of Government procurement, is a profit making concern, including its affiliates, which is independently owned and operated, is not dominant in its field and further qualifies under the size standards criteria of the Small Business Administration (SBA). These criteria are published under Title 13 of the Code of Federal Regulations, Section 121.3-8, and in the Federal Acquisition Regulation, Part 19, Subpart 19.1. For service industries, the size standard generally is based on average annual receipts over a three-year period, depending on the service to be procured. Generally, in the case of agricultural or manufactured products, the size standards are determined on the basis of number of employees. The applicable size standard is prescribed in each NASA solicitation.
