## CLASS DEVIATION to Micro Purchase Threshold And Simplified Acquisition Threshold

**PURPOSE:** Effect a class deviation from 2 CFR 1800 Uniform Guidance to increase the micro-purchase threshold (MPT) from \$3,500 to \$10,000 and the simplified acquisition threshold (SAT) from \$150,000 to \$250,000.

### **BACKGROUND:**

The National Defense Authorization Act for Fiscal Year 2018 (NDAA FY18) (Public Law 11591), Sections 806 and 805 respectively, increased the MPT to \$10,000 and the SAT to \$250,000.

Additionally, Section 217(b) of the NDAA FY 2017 (Public Law 114-328) changed a portion of the MPT definition in FAR 2.101 to increase the MPT for acquisitions from institutions of higher education or related or affiliated nonprofit entities, or from nonprofit research organizations or independent research institutes, to \$10,000.

The Uniform Guidance in section 200.67 Micro-purchase and section 200.88 Simplified acquisition threshold, respectively, refer to FAR 2.1 for the current levels. FAR Case 2018-004 has been opened to implement the appropriate statutory changes in the FAR. However, NASA desires to use the increased thresholds prior to publication of the FAR changes. NASA approved a Procurement Class Deviation, PCD 18-01, on February 16, 2018 to increase the MPT and SAT.

**GUIDANCE:** Effective immediately, all awardees of grants and cooperative agreements shall comply with the changes set forth in the Enclosure.

**EFFECTIVE DATE:** This deviation from 2 CFR 1800 is effective immediately and shall remain in effect until incorporated into 2 CFR 1800, or until the increased thresholds are incorporated into the FAR, via FAR Case 2018-004.
