MEMROANDUM For Mr. Willson H. Hunter

Subject: Inspection to be held June 2, 3, and 4, 1954 at Lewis

1. Will you please take charge of the inspection to be held June 2, 3, and 4? Below is a series of ideas for stops at the Inspection. I suggest that we continue as in the past to have 8 stops of average length - 35 to 40 minutes - or as is required to fill out the day.

2. The suggestions below have not as yet been submitted to NACA Headquarters for approval and are definitely tentative. I suggest that you contact the different divisions involved, in a tentative sort of way, and ask them to submit more detailed programs for the areas indicated.

1. Ames and Langley contributions
2. Operating Problems - Physics
3. PSL - ER) Controls
) Blade vibrations
4. Afterburning, buzz, and burning Mg. - F&C
5. Computing and Data Handling - Physics
6. Nuclear Propulsion - M&T
7. The Supersonic Engine - SWT
8. New Ideas for Compression - C&T
9. Engine Structures - M&T
10. Fundamentals of Combustion - F&C

Abe Silverstein
Associate Director

*The National Advisory Committee
for Aeronautics*

extends a cordial invitation to

Government officials and

key personnel in aeronautics

to attend the

1954 Triennial Inspection of the

NACA LEWIS FLIGHT PROPULSION LABORATORY

Cleveland, Ohio

Wednesday, June 2, 1954 Thursday, June 3, 1954

or

Friday, June 4, 1954

at 9:30 a. m., EDT

(Identical programs each day)

R. S. U. P.

(OVER)

1954 Triennial Inspection of the

NACA LEWIS FLIGHT PROPULSION LABORATORY

*West Side of Cleveland Municipal Airport
Cleveland, Ohio*

Wednesday, June 2, 1954

Thursday, June 3, 1954

Friday, June 4, 1954

(Identical programs each day, 9:30 a. m., EDT)

The 1954 Triennial Inspection of the NACA Lewis Flight Propulsion Laboratory will be held at Cleveland, Ohio, in three separate sections on the dates shown.

This Inspection will afford interested Government officials and key personnel in aeronautics an opportunity to learn at firsthand of recent progress in research in the field of aircraft propulsion at the NACA Lewis Laboratory and also some of the latest progress in research at the Langley and Ames Laboratories of NACA. Demonstrations will also be made of new research facilities and techniques.

The large number of guests expected to attend will make it impracticable for the NACA to arrange for transportation or hotel accommodations. The following hotels have agreed, however, to accommodate NACA Inspection guests so identifying themselves, for rooms on nights preceding the inspection dates, provided reservations are requested before May 25, 1954:

Cleveland Hotel
Public Square and Superior Avenue

Carter Hotel
1012 Prospect Avenue

Special bus transportation will be provided, leaving from the Cleveland Hotel and the Carter Hotel at 8:30 a. m., June 2, 3, and 4. These busses will transport guests to and around the Laboratory and return them to the hotels about 5:30 p. m.

Those motoring are requested to plan to arrive at the Laboratory Administration Building on the west side of the airport by 9:10 a. m. Ample parking facilities will be available. For guests arriving by commercial air transport, NACA busses will be available from 8:30 to 9:30 a. m. for transportation to the Laboratory Administration Building. Guests arriving by Government or private plane are requested to plan to land on the Cleveland Municipal Airport by 9:00 a. m. and taxi to the NACA Hangar on the northwest corner of the airport.

Attendance is limited to guests registered in advance. Registrations will be made only upon acceptance in writing of this invitation. Attendance is also limited to American citizens.

Please return the enclosed acceptance form as soon as convenient, to:

EDWARD R. SHARP, *Director*,
Lewis Flight Propulsion Laboratory,
National Advisory Committee for Aeronautics,
21000 BROOKPARK ROAD, CLEVELAND 11, OHIO.

For telephone inquiries, call either:

Cleveland, Ohio, Lewis Laboratory, Winton 1-6620 (Mrs. M. L. Gosney), or
Washington, D. C., NACA Headquarters, Liberty 5-6700, Extension 63976.

[Please type or print, and mail this form as indicated]

Confirmation of Registration to attend the 1954 Triennial Inspection of the
NACA LEWIS FLIGHT PROPULSION LABORATORY
West Side of Cleveland Municipal Airport, Cleveland, Ohio

To: FROM: EDWARD R. SHARP, *Director*, (Date)
Lewis Flight Propulsion Laboratory,
National Advisory Committee for Aeronautics,
