(OVER)

1955 Triennial Inspection of the
NACA AMES AERONAUTICAL LABORATORY
Moffett Field, California
(near Palo Alto)

U. S. 101A, 38 miles south of San Francisco

Monday, June 27, 1955

Tuesday, June 28, 1955

Identical programs each day, 9:30 a. m., Pacific daylight time

The 1955 Triennial Inspection of the NACA Ames Aeronautical Laboratory will be held at Moffett Field, California, in two sections on the dates shown. These dates were chosen to follow the Joint Conference of the Institute of the Aeronautical Sciences and the Royal Aeronautical Society to be held June 20-24, 1955, in Los Angeles.

Interested Government officials and key personnel in aeronautics will be given an opportunity to receive at first hand reports of recent progress in the field of aerodynamic research at the NACA Ames Laboratory and some reports on research conducted at the Langley and Lewis Laboratories of NACA. There will be demonstrations of new research facilities and techniques.

Because of the large number of guests expected to attend, it will be impracticable for NACA to arrange for air or rail transportation or hotel reservations. Sir Francis Drake Hotel in San Francisco is reserving a block of rooms for those identifying themselves as NACA guests. Reservations held only until 6:00 p. m. unless advance deposit made.

Special round-trip bus transportation will be provided by the NACA as follows:

From San Francisco:

Depart St. Francis Hotel
(Post Street entrance), 8:10 a. m.

From San Francisco Airport:

Depart 8:30 a. m.

There will be no opportunity for breakfast after boarding bus.

Lunch will be served at the Ames Laboratory.

Those traveling by private airplane or auto are requested to plan to arrive at the Laboratory Administration Building by 9:10 a. m.

Aircraft landing at Moffett Field should taxi to NACA hangars near the northwest part of the field.

Attendance is limited to guests registered in advance. Registration will be made only upon acceptance in writing of this invitation. Attendance is also limited to American citizens.

Please execute the enclosed acceptance form, in duplicate, and mail promptly to:

SMITH J. DEFRANCE, *Director*
NACA Ames Aeronautical Laboratory
Moffett Field, California

For telephone inquiries, call either:

Ames Aeronautical Laboratory, Mountain View, California, YOrkshire 7-5581, Smith J. DeFrance, or
NACA Headquarters, Washington, D. C., LIberty 5-6700, Extension 63976.

(Please type or print, and mail this form in duplicate as indicated)
