LUNCHEON

Luncheon arrangements were completed by Miss Helen Davies, Mrs. Edith Watson and Miss Beulah Murray. A lay-out sketch of Hangar No. 2 and photographic illustrations of the set up of the dining area, service area and individual tables are included herein. A cold plate of roast turkey and boiled ham with potato salad, tomato aspic, cranberry sauce, hot biscuits and butter, coffee, iced tea or milk, with a desert of chocolate cake roll and whipped cream was served at the Inspection. The entree and dessert were served to the tables prior to arrival of guests, with the biscuits, butter, and beverage served to the guests as needed. A centerpiece of fresh California fruit was placed at intervals on each table. Photographs of the exhibits on display around the luncheon area are also included herein.
