SUBJECT: Determination Regarding Attendance by NASA employees at the National Aeronautic Association Robert J. Collier Awards Dinner on June 13, 2024

On June 13, 2024, the National Aeronautic Association (NAA), a nonprofit organization under 501(c)(3) of the Internal Revenue Code, will host an awards dinner at the Hilton Washington DC, National Mall the Wharf, 6:00 p.m. - 9:30 p.m. The event is to provide a venue for informal discussion on current challenges the aerospace community is facing. During the event, the NASA/OSIRIS-Rex Team will receive the 2024 Collier Trophy. NAA awards the trophy annually for what it determines is the greatest achievement in aerospace and astronautics in the United States.

Approximately 300 people have been invited to attend the dinner reception. Attendees will have a diversity of views or interests and will include representatives of the legislative branch, personnel from academia, industry representatives, employees of Federal agencies, members of the public, and media. The estimated value of the event, including all food and beverages, is \$225 per person. The NAA is in control of the all the organizing, planning and invitations for the event.

Attendance at this event will allow NASA attendees to exchange information regarding various NASA programs. There is also an Agency interest in having NASA personnel attend these events because it will provide an opportunity for the invited persons to exchange ideas and views pertaining to NASA's policies, programs and operations. I find that the event meets the requirements of a "widely attended gathering" as defined in 5 C.F.R. § 2635.204(g).

Accordingly, NASA employees who do not have a significant role in a matter affecting the interests of the NAA—including NASA employees in non-career positions who are required to sign the ethics pledge under Executive Order 13989—may accept an invitation from the NAA for free attendance for themselves and a guest to this event. In those circumstances, I find that the Agency's interest in attendance outweighs any concern that the individual may be, or may appear to be, improperly influenced in the performance of their duties.

However, NASA employees who have a significant role in any pending matter affecting the interests of the NAA, such as procurement duties, program management, or negotiating or administering a Space Act Agreement, or who receive an invitation from a party other than the event host, NAA, should seek a separate determination from their local NASA ethics office as to whether they may accept the invitation.
