

FY 18 High-Level Budget

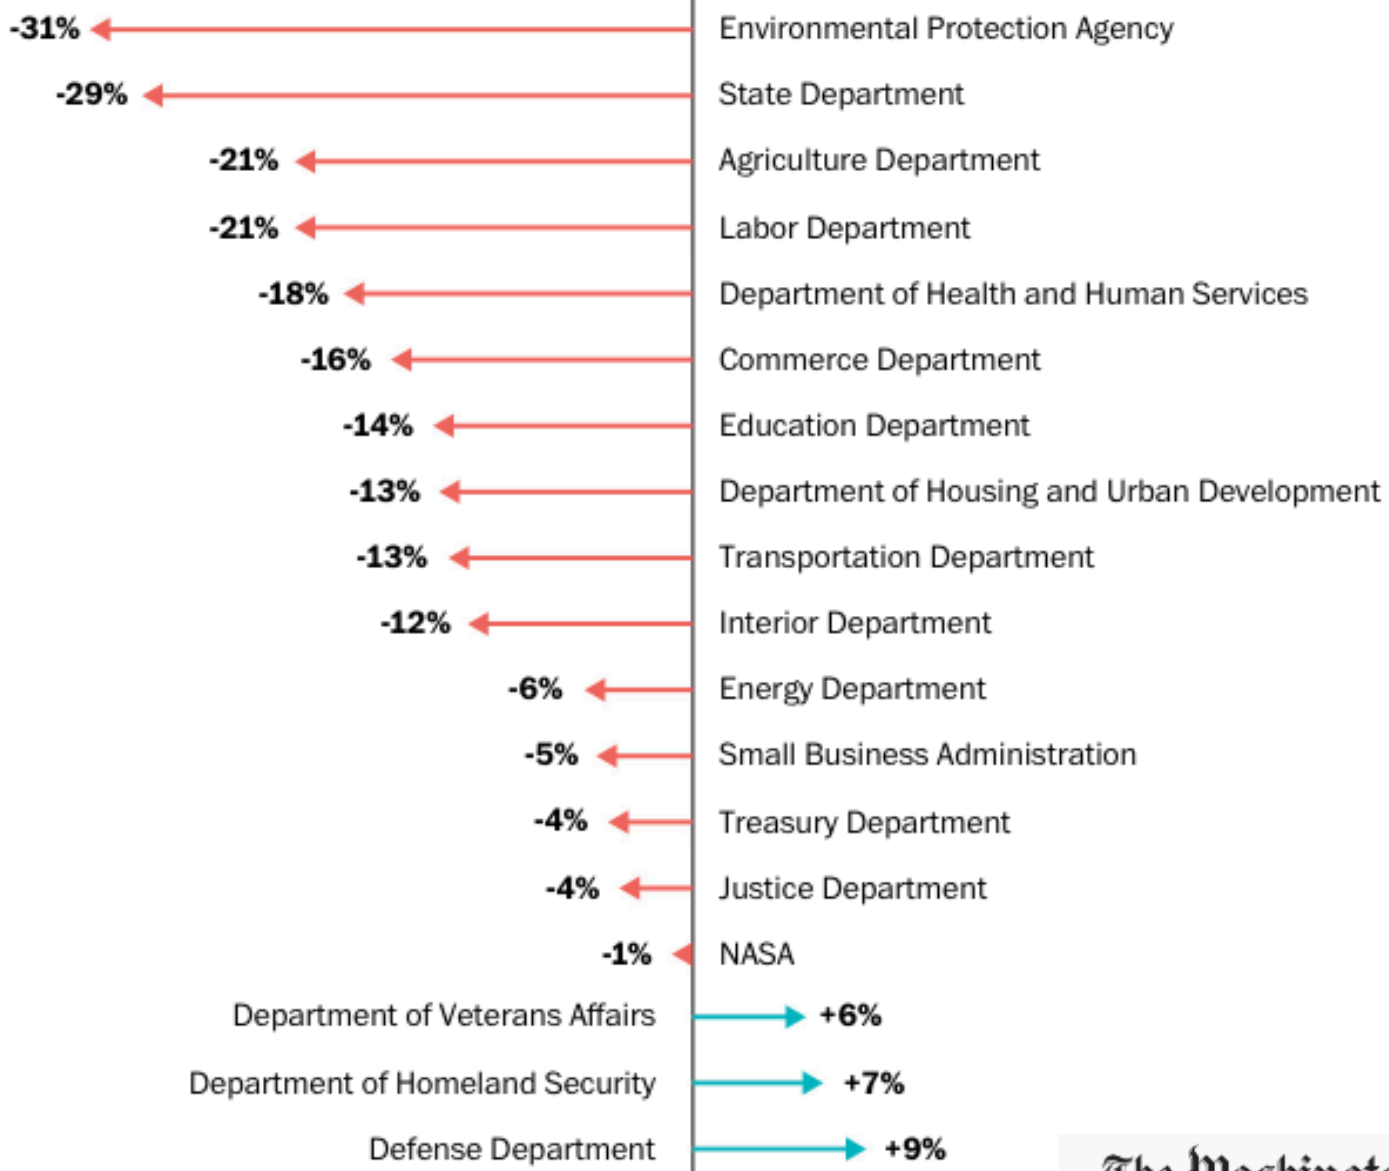

Andrew Hunter

Office of the Chief Financial Officer

Overall Theme

- **The Budget includes \$19.1 billion for NASA. The Budget focuses the nation's efforts on deep space exploration and develops technologies that will help achieve our space goals and benefit the economy. The Budget retains a focus on public-private partnerships and industry to achieve our goals.**
 - Given the nation's tight fiscal constraints, this is a stable budget for NASA
 - 1% below present operating levels
 - NASA has been told to expect flat outyear funding
 - We are still working details, and we will roll out a full request in May
 - NASA will not need to reduce workforce beyond attrition (same policy as recent years)

President's FY18 Budget Blueprint

FY18 Budget Blueprint

- **Human exploration: \$3.7 billion** for continued development of the Space Launch System that will power astronauts into deep space and the Orion capsule that will carry them safely to Martian orbit.
- **Commercial activities: Creates new opportunities for collaboration with industry.**
- **Planetary science: \$1.9 billion** to move ahead with the launch of a Mars rover by 2020 and the launch of the Clipper spacecraft to orbit around Jupiter in order to perform a detailed investigation of the giant planet's moon Europa.
- **Earth science: \$1.8 billion;** terminates four Earth science missions (PACE, OCO-3, DSCOVR Earth-viewing instruments, and CLARREO Pathfinder) and reduces funding for Earth science research grants.
- **Aeronautics: \$624 million** for research and development for faster and safer supersonic flights.
- **Education: Eliminates the NASA Office of Education – This is the Education Office NOT SMD Education Activities. Does not impact internships and fellowships funded in other accounts.**
- **Further budget details are expected to be released in May**

Funding Comparison Across Bills

(in millions)

Mission/Theme	FY 2016 Enacted	FY 2017 House Approps Markup	FY 2017 Senate Approps Markup	Transition Authorization of 2017 Enacted	FY2018 Budget Blueprint
Science	\$5,589.4	\$5,597.0	\$5,395.0	\$5,500.0	
Earth Science	\$1,921.0	\$1,690.0	\$1,984.0		\$1,800.0
