

OFFICE OF SMALL BUSINESS PROGRAMS at the NASA Shared Services Center

The NASA Shared Services Center (NSSC) colocated with Stennis Space Center, MS, supports small businesses through its Office of Small Business Programs (OSBP). The NSSC OSBP is committed to maximizing opportunities for small enterprises to engage in NASA contracts and projects across various administrative and technical services. By providing essential resources, training, and guidance, the office helps small businesses navigate the procurement process and align their capabilities with NASA's administrative, financial, and technical requirements. This collaboration ensures that small businesses play a key role in supporting NASA's mission objectives, driving efficiency and innovation while promoting economic growth and job creation within the small business community.

NASA Shared Services Center (Kiln, MS 39556)

CENTER MISSION

The NASA Shared Services Center's mission is to provide timely, accurate, high-quality, cost-effective, and customer-focused support for selected NASA business and technical services.

Located at John C. Stennis Space Center (SSC), the NSSC reports to the NASA Headquarters Mission Support Directorate (MSD). The NSSC serves as a major Agency-wide service resource that enables the NASA mission by saving taxpayer dollars to maximize efficiency and minimize costs while increasing automation to move forward with NASA's important work. The NSSC provides more than 60 business activities to 10 NASA Centers. To increase operational efficiency and improve overall customer service, the NSSC performs a variety of activities in the areas of financial management, procurement, human resources, enterprise services, and agency business support. By achieving synergy within and across functions, the NSSC reduces resource requirements for institutional support areas and positions NASA for further business process improvements and innovations.
